

Ikarus::LinearElastic
::calculateMatrix

Ikarus::NonLinearElastic
::calculateMatrix

Ikarus::Traction::calculate
Matrix

```
graph LR; A[Ikarus::LinearElastic::calculateMatrix] --> C[Ikarus::Traction::calculateMatrix]; B[Ikarus::NonLinearElastic::calculateMatrix] --> C;
```

The diagram illustrates a flow or dependency. On the left, there are two separate boxes. The top box contains the text 'Ikarus::LinearElastic::calculateMatrix'. The bottom box contains the text 'Ikarus::NonLinearElastic::calculateMatrix'. Arrows from the right side of both of these boxes point towards a single box on the right. This right-hand box is shaded gray and contains the text 'Ikarus::Traction::calculateMatrix'.
