

Ikarus::KirchhoffLoveShell  
::calculateMatrixImpl

Ikarus::KirchhoffLoveShell  
::calculateVectorImpl

Ikarus::KirchhoffLoveShell  
::bopBending

```
graph LR; A["Ikarus::KirchhoffLoveShell::calculateMatrixImpl"] --> C["Ikarus::KirchhoffLoveShell::bopBending"]; B["Ikarus::KirchhoffLoveShell::calculateVectorImpl"] --> C;
```

The diagram illustrates a dependency or inheritance relationship. Two white rectangular boxes on the left represent source functions: 'Ikarus::KirchhoffLoveShell::calculateMatrixImpl' (top) and 'Ikarus::KirchhoffLoveShell::calculateVectorImpl' (bottom). Two blue arrows point from these boxes to a single gray rectangular box on the right, which represents the target function 'Ikarus::KirchhoffLoveShell::bopBending'. This suggests that both source functions contribute to or are used by the target function.
