

Ikarus::LinearElastic
::calculateScalarImpl

Ikarus::NonLinearElastic
::calculateScalarImpl

Ikarus::KirchhoffLoveShell
::calculateScalarImpl

Ikarus::Traction::calculate
ScalarImpl

```
graph LR; A[Ikarus::LinearElastic::calculateScalarImpl] --> D[Ikarus::Traction::calculateScalarImpl]; B[Ikarus::NonLinearElastic::calculateScalarImpl] --> D; C[Ikarus::KirchhoffLoveShell::calculateScalarImpl] --> D;
```

The diagram illustrates a method delegation or inheritance pattern. Three source methods on the left (LinearElastic, NonLinearElastic, and KirchhoffLoveShell) all point via blue arrows to a single target method on the right (Traction::calculateScalarImpl). The target method is highlighted with a gray background, while the source methods have white backgrounds.
