The diagram illustrates a function call or inheritance relationship. Three source functions on the left (Ikarus::LinearElastic::calculateVectorImpl, Ikarus::NonLinearElastic::calculateVectorImpl, and Ikarus::KirchhoffLoveShell::calculateVectorImpl) are shown in white boxes with black borders. Blue arrows point from each of these source functions to a single target function on the right (Ikarus::Volume::calculateVectorImpl), which is shown in a gray box with a black border. The target function is the only one with a gray background.
